### DETAILED ACTION

The Finality of the Action has been withdrawn.

The examiner has found some art requiring New Ground of Rejection.

Claims pending 1 and 92.

During an Interview with Mr Gordon on 8/17/05 before the new grounds of rejection were found, the applicants attorney agreed to some amendments.

1. For the definition of R1 (claim 1) to be optionally substituted carbocyclic aryl to insert a 6 membered aromatic ring containing no hetero atom . [ this was being done in order to avoid introducing new matter.
2. Delete R3 and R4 may be connected through a covalent bond . [Non-elected matter drawn to group III. See the restriction]
3. R5 phenyl substituents to be limited to Halogen, alkyl and alkoxyl.

These would overcome the enablement rejections given previously.

When examiner did an updated search she found art, hence the following New ground of rejection.
